Count your "Yes" answers to see if your loved one needs an Emergency Response USA system.

0-2 Yes answers Not required - The health and living situation don't require a safety monitoring system, but it can provide peace of mind against the unexpected.

3-5 Yes answers Moderate need - At risk for a fall or other incident. A safety monitoring system helps ensure that aid can get to them quickly.

6-8 Yes answers Highly recommended - Several factors put you or your loved one at fairly high risk of a fall or other incident. To maintain independence, a safety monitoring system is highly recommended.

9-13 Yes answers Urgent need - You or your loved one is at very high risk of an incident requiring medical attention. A safety monitoring system is strongly advised.
